About This Game

Top-down tactical shooter with stealth elements. Choose your way to complete mission in clear stealth or in a loud warfight.

Tactical ops is a subsystem of investigative, organizational-preparatory, other actions and operational-search activities conducted under a single plan and aimed at solving individual intermediate tasks subordinated to the general objectives of investigating a criminal case.

You take on the role of one of the soldiers, whose goal is to detect and eliminate the enemy in the very center of the fighting events. The set of equipment includes a pistol and a rifle with a silencer and a laser target designator, a lightweight body armor.

Watch the detection indicator otherwise the opponent will raise the alarm and cause support and then you have to fight hot.
